Sec. 1. Short Title. --This Act may be cited as the "Citizens' Utility Board Incorporation Act of ..."

Sec. 2. Findings and Purposes. --

(a) FINDINGS . --The legislature finds that:

(1) individual action by residential consumers for the purposes of participating in utility matters and communicating their views is rendered impracticable by reason of the disproportionate expense of taking such action;

(2) such participation and representation can be best secured by the creation of a permanent, non-for-profit organization which is under the democratic control of its membership, solely responsive to that membership's goals, and which is funded by voluntary contributions;

(3) the formation of such an entity by consumers acting voluntarily is impeded because consumers have neither the resources nor an efficient mechanism to contact all residential utility customers, raise initial funds and join such an entity; and

(4) in order to create such an entity, it is necessary to establish a democratically structured organization and to provide for the dissemination to all customers of information as to the formation and purposes of such organization and to provide an efficient means for joining and contributing to such organization.

(b) PURPOSES. --It is the purpose of this Act--

(1) to assist in establishing adequate and affordable utility service to all residential customers in order to preserve the health and general welfare of the citizens of this state;

(2) to foster and encourage active citizen participation in utility matters and to facilitate effective representation and advocacy of the interests of residential utility consumers before regulatory agencies, the legislature, the courts and other bodies; and for these purposes to create a permanent not-for-profit organization;

(3) to create an efficient funding mechanism for the organization, involving no compulsory burden whatsoever on the taxpayers of this State, whereby residential utility consumers and others may voluntarily contribute to the organization; and

(4) to ensure that public policies affecting the provision, quality and cost of utility services fairly reflect the needs and concerns of those consumers.

For these reasons there shall be established a not-for-profit Corporation known as the "Citizens' Utility Board, Inc." with the responsibility to promote adequate representation of residential utility consumers; to collect operating funds; to assist in the redress of residential utility consumer complaints; and to provide for residential utility consumer membership in such Corporation and residential utility consumer direction of the actions of such Corporation.
